Appendix 1 Stories collected as part of *Our Community Matters* and *Measuring the Mountain*

(Interlink RCT).

Community perception: “Maerdy and Ferndale need intergenerational activities, including capitalizing on working age adults to act as mentors and role models for young people and removing barriers and enabling young and older people to share experiences, such as volunteering and open days in residential homes.” – *Residents of Maerdy and Ferndale (Our Community Matters event).*

Opportunities into work “There are more places to work in Ferndale than there are in Maerdy, but not many opportunities for exciting creative jobs. When I think about getting a good job, I always think of going to University and moving away. Although I love where I am from, we don’t have great jobs available.” – *Young person from Maerdy, attending Ferndale Youth Club.*

“I’d like to see better opportunities locally for the next generation to have more of a stable working life. Since the mines have closed, we haven’t seen anything come back and give families in the area good employment opportunities. I don’t know the answer, but I know I would love to see more apprenticeships available.” – *Grandmother lived in Ferndale all her life.*

The Importance of community groups the people of Maerdy and Ferndale recognize the importance of groups and organizations working together and are passionate in ensuring community spirit remains high. – *Our community matters event.*

“I feel that Ferndale Youth club should be open more times a week rather than 2 days as it is. I feel this should happen because it can stop young people from getting into trouble with the police for being noisy as there would be a safe place for them to go. It would give young people more things to do rather than just hanging around in the park.” – *Young person.*

Transport “The local bus service isn’t very good we don’t have a train station, so we are stuck where we are unless we drive or your very fit and like a run. Funny enough mind we have a load of takeaways.”

Environment “The valleys have become a beautiful green environment; the landscape compares to some of the most beautiful places in the world. My young great nieces recently visited from Australia. They are 5 and 3 years old, my sister was driving them up to visit us in Ferndale and they were having a conversation in the back seat and all

my sister could hear from them was “wow, my mountain in my window is huge and green,” then “no my mountain is better in my window, it’s all purple and grey and green and its big it’s amazing.” My sister was chuckling in the car all the way up the valleys.” – *Story collected from TalkValleys.*

Pubs and Clubs “We used to always go down the pub for a few after work on a Friday, we would have a few games of pool, maybe a game of darts and just have a laugh with some of the boys. It’s not like that now. We used to have a show most Saturday’s nights that’s when you would take the wife out, have a dance and just a good time. Most pubs are closed now, it’s a pity as they were the places, we would all go, they were the places we would all meet up, catch up and keep friendships going. – *Community resident of Ferndale.*
